Midterms Schedule – Semester 1 2023/2024

- 30 October: Mathematical Modelling of Continuum Media

- 6 November: Dynamical Systems and Bifurcation Theory

- 13 November: Introductory Real Analysis

- 20 November: Applied Partial Differential Equations

- 4 December: Real and Functional Analysis

- 11 December: Dynamical Systems and Bifurcation Theory

- 18 December: Applied Partial Differential Equations

- 8 January: Introductory Real Analysis

- 8 January: Real and Functional Analysis

- 12 January: Control Systems

For more information about time, room, booking, other rules etc., each lecturer is supposed to provide you with details in good time in advance before each midterm exam.
